New Jersey Medical Reserve Corps

The New Jersey Medical Reserve Corps (NJMRC) is a network of community-based, locally organized units comprised of volunteers who help ensure their communities are healthy, prepared, and resilient. With nearly 5,000 volunteers, the NJMRC promotes healthy living throughout the year and it stands ready for deployment in the event of a disaster or other emergency.

In addition to Health Professional volunteers, such as doctors, nurses, Emergency Medical Technicians or EMTs, therapists, dentists, counselors, and veterinarians, who can provide clinical services, we are also looking for Community Health volunteers. Community Health volunteers serve a variety of important functions including reception and clerical services, information technology, language translation, assistance to disabilities and access and functional needs individuals, hospitality, food services, and security.
